

Excellence in Operational Rounding

Performance Logic helps healthcare organizations drive compliance and continual improvement with a comprehensive platform for environment-of-care rounds, safety inspections, facility audits, and more. We'll work with you to transform inefficient systems into standardized processes that increase automation, enhance accountability, and facilitate communication, saving time and resulting in superior outcomes.

- ✓ Eliminate paper processes
- ✓ Enhance accountability and communication
- ✓ Identify chronic problem areas
- ✓ Resolve issues more quickly
- ✓ Track progress in real time
- ✓ Store data securely in the cloud

How It Works

- Create audits and surveys using built-in templates
- Enter findings into a user-friendly interface through a mobile device
- Send notifications and follow-up reminders with integrated email
- Create action plans and schedule target completion dates
- Sort issues by building, location, staff, date, and more
- Generate scheduled and ad hoc reports and graphical analyses
